

## CZMA Performance Measurement System Guidance Update for FY2009-10:

A new draft of the CZMA Performance Measures Guidance was recently provided for state comments, which are requested **by March 16th**. Highlights include:

- The new draft incorporated program feedback from the regional workshops and throughout phased implementation.
- Developed draft metadata requirements for comments. Metadata requirements were developed in response to GAO recommendations to improve data reliability and consistency.
- The draft metadata requirements will be modified based on comments and then tested during this reporting cycle.
- Final requirements will be developed based on experience during this test cycle and an additional comment period held.
