

## Status of Coastal Nonpoint Program: Number of Conditions Remaining and Funding History (FY01-FY05)

### ~~The National Picture~~

In a Nutshell:

- 34 conditionally or fully approved states and territories
- 16 fully approved states and territories
- 1 state under review for full approval
- 1 state with conditional approval pending

We really have come a long way . . .

\* Note: The "beginning" and "1998" actually reflect the total number of conditions the states and territories received. The number includes the number of conditions after the initial states received conditional approvals in 1997 and 1998 as well as the number of conditions after the second round of states received conditional approval in 2002 and 2003. It does not reflect the number of conditions Indiana will receive for their conditional approval as this is still being determined.

### Program Implementation Funding History (FY01-FY05)

Total Funding: \$37,214,825  
 Administrative Costs<sup>1</sup>: \$13,468,961 (36%)  
 Project-Oriented Costs: \$23,745,864 (64%)  
 Priority Funding Areas<sup>2</sup>: \$7,609,539 (24% of project funds)

<sup>1</sup> Administrative funding (staff salaries, etc) is actually higher than represented in the national and state funding summaries. Because Congress does not like to see a lot of money spent on "administration" and prefers to see it go towards actual projects, any staff salaries and other administrative expenses that were assigned to a specific project-oriented task were categorized under that project and not as "admin."

<sup>2</sup> Priority funding areas are OSDS, marinas, and capacity building.
